

Test Architect [BaNCS exp must]

Description

Risingsun is Hiring Test Architect [BaNCS exp must]

- Work model: WFO daily
- Open to Visa holders: yes. **Please share VISA and PASSPORT copies for non-SA citizens when sharing profiles**
- Employment type: 6/12-month contract, renewable
- Location: JHB
- Client type: banking
- Job Description:

We are seeking an experienced **Test Architect** to lead the **end-to-end testing strategy and governance** for our client's **TCS BaNCS Payments module upgrade**. This role will ensure **Quality Intelligence** across all phases of testing, covering **payment flows, lifecycle validations, system integrations, compliance checks, and non-functional testing**. The Test Architect will define the **test architecture**, oversee execution, and ensure seamless migration assurance for critical payment systems.

Required Skills & Experience:

- **Domain Expertise:**
 - Deep understanding of **banking payment systems, critical payment rails, and regulatory frameworks**.
- **Technical Skills:**
 - Strong experience in **test architecture design, automation frameworks, and integration testing**.
 - Familiarity with **SWIFT MT/ISO message formats, real-time settlement systems, and AML/Fraud systems**.
- **Tools & Processes:**
 - Proficiency in **test management tools**(JIRA, ALM), **automation tools** (Selenium, Tosca), and **performance/security tools** (JMeter, Burp Suite).
- **Leadership:**
 - Proven track record in **leading large-scale migration testing programs** in banking domain.

Preferred Qualifications:

- Bachelor's degree in **Computer Science, Information Technology**, or related field.
- Certifications: **ISTQB Advanced Test Manager, Certified Test Architect**, or equivalent.
- Prior experience in **TCS BaNCS Payments module and payment system upgrades**.
